Catherine,

Thank you for sticking around and trying my insane idea to film with IR... At the end we made together, and I thank you for your amazing support and care.

I'd love to do commercials together. I don't know many in that world, but our images should inspire some to take us on. I still didn't have time to put together a reel, and not sure with my schedule if it will happen anytime soon.

I have a tiny feature in Sault Ste MArie in MArch 4 weeks. But they are adamant to send the backed up rushes to Toronto to a new post production facility (not sure of the name yet) and can not afford you there. I tried and tried and will try again when I write next to them. It's straight-forward, not many shots per day. More like Amour and Bergman films.

sending you love and hugs,

Norayr
