Catherine
Lovely to hear from you. Caught me with a minute to respond.

Absolutely I thought you were a good team player. You're dedicated and thorough. And did an amazing job.

I think Buffaloed was a crazy job in terms of production and organization, so I was aware of the struggles.

If any feedback I could give, and this is based on my personal way of working, I think there were times where we didn't need to be so focused on the camera dept as a priority. I like to keep us a solid and quietly functioning part of the machine. Working in the background with whatever the logistics issues are. Someone put it well the other day, camera is the only department that only asks things of other departments without returning anything. So it is nice to be aware of that.

But I think we did great wok on Buff. Considering the limitations. And I am very grateful for your work, it was the easiest final grade I have ever had.

I hope this is useful to hear.

Thanks for the email.

Best

guy

Hey Guy,

Hope all is well with you.

Just as a recap for me, as I never really asked you, how did you feel about working with me? Did you feel I was a good team player?
Sometimes it's good to ask these questions.

It's Greek Easter which has a quality of making one look at things from a different perspective.

Kind regards,

Catherine
